

STRADIVARI 52

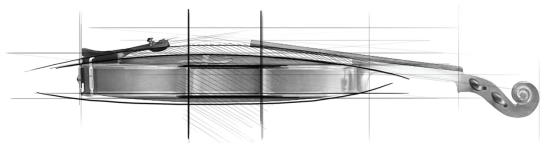

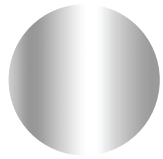

STRADIVARI 52.

The “granturismo” concept, evolved.

Elegance, uniqueness, refined equipment, luxury of materials and attention for details: all the canoni of the Stradivari line are evolved in the new Stradivari 52.

Stradivari 52 will be the largest rib ever going to be produced by Cantieri Capelli.

The concept was born from the synergy with the **Consorzio Liutai** “Antonio Stradivari”.
